

- 1  **Update 2013 Document Structure**
 - Highlights
 - Volume 1 – Strategic Plan
 - Volume 2 – Regional Reports
 - Volume 3 – Resource Management Strategies
 - Volume 4 – Reference Guide
 - Volume 5 – Technical Guide
- 2  **Volume 1 – Strategic Plan**
 - Chapter 1 – Opening Chapter
 - Chapter 2 – CA Water Today
 - Chapter 3 – Imperative to Invest
 - Chapter 4 – Companion Plans
 - Chapter 5 – Managing an Uncertain Future
 - Chapter 6 – Integrated Data and Analysis
 - Chapter 7 – Finance Planning Framework
 - Chapter 8 – Implementation Plan
- 3  **Chapter 1: Opening Chapter**
 - General description of the Water Plan
 - Update 2013 Themes
 - New features (Enhancements)
 - Document guideposts to all topics
- 4  **Chapter 2: CA Water Today**
 - Geophysical and social variability and diversity
 - Water portfolios (1998 – 2010)
 - IWM spending and debt levels
 - Critical Challenges
 - Responses and Opportunities
- 5  **Chapter 3: Imperative to Invest**
 - Vision
 - Principles
 - Objectives
 - Will emphasize:
 - Urgency to act and invest
 - Implementation of Integrated water management
 - Methods for categorizing future investment
- 6  **Chapter 4: Companion Plans**
 - General description of water governance in California
 - Current alignment of *objectives* and *resource management strategies* across State agency plans
 - Description of areas that require further alignment
 -

Note: Incorporation of State agency plan recommendations will occur in *Chapter 8 – Implementation Plan*
- 7  **Chapter 5: Managing an Uncertain Future**
 - Recognizing and reducing uncertainty
 - Assessing and accounting for risk
 - Sustainability Indicators
 - Future Scenarios
 - Statewide results of future change in water demand
 - Evaluating resource management strategies (for three hydrologic regions)

- 8  **Chapter 6: Integrated Data and Analysis**
- Linking collaboration with technical analysis
 - Providing effective analytical tools
 - Improving and sharing information
 - Recommendations for above topics
- 9  **Chapter 7: Finance Planning Framework**
- Approach for Prioritizing State Integrated Water Management Investment
 - Role of Public (State Government) Funding
 - Estimated Costs of Future IWM Activities
 - Available Financing Strategies
 -
- 10  **Chapter 8: Implementation Plan**
- Will focus on recommendations
 - Objectives
 - Related Actions
 - This chapter will be informed by:
 - Update 2013 Progress Report
 - New information from Update 2012 Enhancements (e.g. new topics such as finance)
 - Companion Plans
 -
- 11 

Chapter 1 - Opening Chapter
- Goals of Today's Discussion
 - Common understanding of general approach
 - Receive feedback on topics and flow of chapter (i.e. Story)
 - Advance content for opening chapter
- 12 
- Focused on key messages of Update 2013
 - Opening Chapter discussions are indirectly addressing Highlights topics/content
 - Linkages to in-depth content on all topics
 - Separate Update 2013 Document Guide to be developed
 - Name of Chapter is open for discussion
